Steve:

Our system won't let us receive zip files. You could rename it as .com and send it and then I will change it back to zip.

What is the schedule to consolidate the waste? What's the plan after consolidation of the waste? Please schedule it out for me.

Thanks

Gary Moore

The problem has been that anyone that we discuss disposal with wants to know how much we have and we couldn't tell them, that's why I came up with the idea to put the waste into one tank. I'm attaching some pictures from Tank 27 to show you what we are up against.

The report is fine. I know you guys have been working with Clean Harbors for along time on disposal alternatives. Please let me know exactly what the status and plan is on the ultimate disposal of the oily wastes.

Thanks

Falcon Refinery

Attached is the June 2008 Monthly Progress Report for the Falcon Refinery, please let me know if you have any comments. As an update since the completion of the progress report, Tank 27 is empty of liquid waste and only contains sludge in the bottom of the tank. We are sampling and characterizing the sludge for disposal.
